**Overview of the Activity:** To provide a forum for undergraduate, graduate or post-graduate students and healthcare professionals to connect and talk about new research discoveries with other professionals in the field. Network with scientist from institutions and practices worldwide. Present the research performed from the program's faculty and their areas of interest. Identifying possible research supervisors and mentors with comparable research interests.

**Educational Objectives and Goals:** To present the latest neurosurgical innovations and be inspired by speakers in the frame of preparation for the PhD program.

**Audience:** Undergraduate, graduate or post-graduate students, residents, neurosurgeons, healthcare professionals.
